THE AUSTRANS GROUP^{QLD}

CAPABILITY STATEMENT

www.austransgroup.com.au

SUSTAINABLE SOLUTIONS

At Austrans Group, we are committed to the development of sustainable and managed liquid and hazardous waste solutions Australia wide. Since its humble beginnings in 1999, we have grown to become an industry leader in waste management, industrial services, and project management.

“Our scope of work is extensive”

“There’s nowhere we won’t go”

Our reputation has been built on our ability to deliver on time and on budget, priding ourselves on our superior service-based approach and solutions focus . This has enabled us to work with some of Australia’s largest organisations, completing difficult jobs others won’t touch.

While we provide a range of waste management solutions and industrial services, we also specialise in large scale projects. We have the team and equipment ready for any of your project needs. We also offer 24/7 emergency response, with a fast response time and a dedicated and experienced team.

SERVICES

AUSTRANS
THE AUSTRANS GROUP^{PLD}

WASTE MANAGEMENT

We efficiently handle affluent waste, minimising your costs. Using advanced equipment to remove large volumes of material. Our large fleet swiftly transports various wastes, including paunch, sludge, and wastewater, using specialised vehicles like B double vacuum tankers.

INDUSTRIAL SERVICES

We provide a range of industrial services:

- Hydro vacuum excavation: Offering non-destructive digging, trenching, network maintenance, and telecommunications services.
- Industrial / commercial cleaning: Specialising in high and ultra-high-pressure water blasting for removing paint, rust, gum, and other surface contaminants. Also offering commercial and industrial site cleaning and spill remediation.
- Water interceptor pump: Services include pump out and cleaning of interceptors, jet cleaning, safe waste disposal, inspection assistance, maintenance scheduling, and vacuum tanker removal of solids and liquids.
- Cold cutting: Providing surface preparation, concrete removal, tank resurfacing, and assistance with plant maintenance, repair, or removal.

AUSTRANS RECYCLERS

Our latest Recycler models are designed to efficiently clean pipes up to 300DN, removing large volumes of silt and debris. Each unit features a high-performance vacuum pump that extracts water from inside the pipe, recycling it through five onboard tanks for continuous cleaning.

PFAS REMEDIATION

We offer a comprehensive array of PFAS treatment methods aimed at decontaminating and eliminating PFAS from water, soil, and foam. These methods include high-temperature incineration or oxidation, thermal desorption, PFAS-optimised physiochemical water treatment, and chemical immobilisation and solidification

CCTV MONITORING

We offer a full and comprehensive Closed Circuit Television (CCTV) pipe inspection and monitoring service for the review and administration of wastewater systems. With a broad range of cameras, we can survey pipes from 40mm up to 3m.

HIGH PRESSURE WATER BLASTING

Our high pressure water blasting service embodies efficiency, cost-effectiveness, and environmental friendliness. Our team of professionals in high pressure water blasting extends our services to a diverse range of locations, including sewerage systems, drains, tanks, marine vessels, bridges, buildings, manufacturing plant facilities, and other amenities.

DIFFERENCE

ADVANCEMENTS

We stay up to date on cutting-edge technology, automation, and innovation, to boost efficiency and mitigate risks.

COMPLIANCE

Triple ISO accredited, we adhere to the strictest Australian and international standards.

RECYCLING

We offer genuine environmental consultancy, enhancing recycling rates and ensuring regulatory compliance through innovative recycler units, prioritising waste reduction, and landfill minimisation.

FLEET

Our versatile fleet ensures readiness for projects of any scale, tailored to meet specific client requirements.

AGILITY

With a skilled spill response team and a fleet of over 500 specialised vehicles, we swiftly address emergency spills, guaranteeing 24/7 service to keep operations running smoothly.

TEAM

We are committed to ensure all employees receive and maintain the necessary training and experience required to deliver our services safely, with the highest standards. Providing a positive working environment, and inclusion to all is a big part of our ethos.

COMPLIANCE

We specialise in safe, secure, and sustainable removal, transportation and disposal of heavy liquids and sludge with minimal impact on-site or to operational activities, all in compliance with safety and environmental requirements. We are triple ISO accredited and comply with the most stringent Australian and International standards.

We demonstrated robust adherence to ISO standards across all departments and functions, showcasing our commitment to quality, safety and environmental management practices.

We maintain certification in:

- ISO 14001:2015 – Environmental Management Systems
- ISO 9001:2015 – Quality Management Systems
- ISO 45001:2018 – Occupational Health and Safety Management Systems

FLEET

AUSTRANS
THE AUSTRANS GROUP^{PLD}

Our specialist fleet of purpose built vehicles keep operations moving around the clock. With multiple locations across Australia, our team work closely with clients, ensuring effective waste management and industrial service solutions to meet their needs.

VACUUM TANKERS

- Road Train Vacuum Tankers
- B-Double Vacuum Tankers
- Semi Vacuum tankers
- Mini Vacuum Tankers
- B Double Tanker

SPECIALISED LIQUIDS VEHICLES

- Dangerous Goods Tankers
- King Vac 1100
- Spoutvacs
- Recycler Trucks
- Water Carts
- Gully Suckers

INDUSTRIAL SERVICES

- Ultra High Pressure Water Blasting
- Twin and Triple High Pressure Pump Trailers
- Austrans Hot Wash Water Blaster
- Specialised Austrans Confined Space Units
- Road Train Tippers

TIPPER AND HOOK TRUCKS

- Hook Trucks
- Road Train Tippers
- B Double Tippers
- Truck / Quad Dog Tippers
- 10m Tipper Trucks
- Side Tipper Trucks
- Stag Tipper
- B Double Hook Lift
- Semi Tipper Truck

TAUTLINERS

- Rigid Tautliner
- Single Walking Floor
- B Double Tautliner
- Semi Tautliner
